SUMMARY

Motivated and detail-oriented JavaScript Developer who completed an intensive MERN stack bootcamp. Skilled in building responsive web applications using React, Node.js, and MongoDB. Passionate about creating efficient, user-friendly interfaces and collaborating with peers to deliver high-quality solutions. Eager to apply my knowledge in a professional setting and contribute to innovative projects.

EXPERIENCE

August 2024 - December 2024

MLab Academy

- Participated in an intensive, hands-on MERN stack development training building real-world applications from concept to deployment.
- Collaborated in a team environment to design and develop user-friendly web applications with a focus on simplicity, functionality, and security.

PROJECTS

Hotel Application

github.com/AlsonAfrica/Hotel-React

- Developed a full-stack web application for hotel management using React for the front end and Firebase for the back end, ensuring high performance and responsiveness.
- Designed and implemented a Content Management System (CMS) to manage hotel content, including payments, users, and room availability.
- Integrated RESTful APIs, such as Stripe, to enable secure payment processing and seamless data flow between the client and server.
- Styled the user interface using CSS and Material UI, ensuring an engaging and intuitive user experience.

Registration Application

github.com/AlsonAfrica/Admin-Registration-Node

- Node.js for the back-end, ensuring high performance and responsiveness.
- Integrated Firebase as the database to manage data storage and retrieval efficiently.
- Implemented RESTful APIs with Node.js to handle authentication, authorization, and CRUD operations for admins and employees.
- Designed and styled the user interface using CSS and Material UI, ensuring an intuitive and engaging user experience.
