Full-stack Developer with 2 years of experience building responsive web and mobile applications using React, React Native, Node.js, and MongoDB. Passionate about enhancing user experience and application performance. Demonstrates a strong ability to collaborate within cross-functional teams to deliver functional, high-quality products to end users.

EXPERIENCE

Online Direct (Dynamic DNA Internship integrated learning)

Technical Support Level 1   Current

- Performing daily system health checks (servers, services, network monitoring) data processing tasks, greatly enhancing overall productivity and data workflow management in the organisation.
- Answering calls from clients professionally and log all issues in the ticketing system.
- Providing support for email protocols including POP and IMAP, ensuring proper setup, troubleshooting and migration when required.
- Assist walk-in clients with support queries or hardware/software-related issues.

Spana Application

React Native Front End   Current (In-Progress)

- Currently designing and developing the user interface for the application.
- Assisting in designing application data flow and backend.

Code Tribe Academy

           June 2024 - Feb 2025

- Designed and developed mobile features using React Native and TypeScript, ensuring intuitive and responsive UI components.
- Collaborated with design and product teams to implement and refine features aligned with user experience goals.
- Built and integrated secure APIs using Axios and Firebase, implementing robust state management with Redux Toolkit.
- Deployed and maintained builds across Expo, Android (Gradle), and iOS (Xcode) environments.
- Contributed to the full application lifecycle in an Agile team, ensuring delivery of clean, maintainable, and testable code.

EDUCATION

Matric 2013 - 2017

Seana-Marena High School

Bachelor in Biokinetics 2018 - 2022

University of Johannesburg

CERTIFICATIONS

Code Tribe Academy React Developer

Microsoft MS 900

Microsoft AI 900

SKILLS

- Languages: JavaScript (ES6+), TypeScript, C#
- Frameworks: React Native, React.js
- State Management: Redux Toolkit
- API Integration: Axios, Firebase, RESTful APIs
- Tools: Gradle, Metro Bundler, Git,Github, cPanel, Xoho, Azure,Televiva, Postman

- Backend: Firebase, Nodejs, Express, C# MVC
- Database: SQL, Postgresql, SQLite, Server Management Studio, Firebase,
